

## DEPARTMENT OF STATE AND OTHER INTERNATIONAL PROGRAMS

The Department of State, the U.S. Agency for International Development (USAID), and other international programs advance the national security interests of the United States by helping to build and sustain a more democratic, secure, and prosperous world. Investing in civilian diplomacy and development fosters stability around the world, supports the goals of the President's Policy Directive on Global Development, reduces poverty, and promotes universal values, which in turn helps to protect our national security. International programs also support economic development and job creation in the U.S. by increasing trade and expanding access for U.S. businesses to international markets. The 2014 Budget for the Department of State and Other International Programs includes funding for the necessary base resources to maintain critical diplomatic and development efforts around the world as well as for Overseas Contingency Operations (OCO) resources, which sustain current and future extraordinary civilian efforts in the frontline states of Afghanistan, Pakistan, and Iraq. The costs associated with OCO are temporary in nature, will diminish as the missions are normalized, and will vary over time commensurate with the pace of civilian activity and the security environment in each country.

Diplomatic and Consular Programs are financed by this appropriation, fees for services, and reimbursements from other agencies (including for administrative and other services provided by the Department of State). As in previous years, two-year funding is requested for this account, except for funds requested for Worldwide Security Protection (WSP), which is to remain available until expended. This account is the Department of

State's primary operating account and funds a broad range of activities from policy setting, planning and design, to implementation and operations and maintenance. The 2014 request includes base funding for the State Department operations in Iraq, Afghanistan, and Pakistan that are supported by the Diplomatic and Consular Programs (D&CP) account. The balance of the funding requested for operations in Iraq, Afghanistan, and Pakistan is included in the Overseas Contingency Operations (OCO) account request for the D&CP account.

Funds are requested in the following categories:

**Human Resources.**—This activity supports American salaries at overseas and domestic United States diplomatic missions, including Department of State employees carrying out security protection activities. The professional development and training activity is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional area and language skills needed for the conduct of foreign relations in the Department and abroad. This activity also supports the management, recruitment, and performance evaluation of Foreign and Civil Service employees (including efforts to attract a diverse applicant pool) and locally employed staff.

**Overseas Programs.**—This activity provides funding for the operational programs of all the regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for 2014 will support 274 United States embassies, consulates, and other diplomatic posts worldwide. Resources for this activity are used to provide for: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of U.S. foreign policy objectives, including the hosting of and participation in various international conferences, meetings and other multilateral activities in the United States and abroad. Resources in this appropriation support the conduct of international informational programs of the United States. The resources in this activity are used to define, explain and advocate U.S. policies abroad and to seek to increase knowledge and understanding among foreign audiences of U.S. society and its values. This activity also encompasses medical programs for the Department of State, the Foreign Service and other U.S. Government departments and agencies overseas. Centralized funding for travel and transportation of effects associated with the assignment, transfer, home leave and separation of the Department's personnel and dependents is also included in this activity.

**Diplomatic Policy and Support.**—This activity supports the operational programs of the functional bureaus of the Department of State, which includes providing overall policy direction, coordination, and program management among United States missions abroad in pursuit of regional and global foreign policy objectives, including the hosting of various international conferences and meetings in the United States and abroad. Resources also fund the management of U.S. participation in arms control, nonproliferation, and disarmament negotiations and other verification and compliance activities, in addition to funds otherwise available for such purposes. This activity, supported by fees for consular services, also encompasses overseas American citizen services; the issuance of passports to U.S. citizens both here and abroad; visa adjudication and prevention and detection of visa fraud; and implementation of a coordinated strategy to improve consular systems and processes in support of U.S.

border security, including sharing data with the Department of Homeland Security, the Department of Justice, the Intelligence Community, the Treasury Department, and the law enforcement community. The information management activity in D&CP includes resources that are used for the effective and efficient creation, collection, processing, transmission, dissemination, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Its requirements are driven by the informational needs of the President, the Secretary of State, the Department and its 274 missions, and other Government agencies overseas. Components of the information management activity include: telecommunications; classified information handling; unclassified data and word processing; pouch, mail, and publishing services; administration of an electronic and archival records management program; document classification and declassification; information security; information technology capital planning; and provision of information management services. Administration and staff activities are also included in this area. These activities include domestic and overseas administrative services directly related to Department programs, such as:

—The direction and control of administration and management operations, and reviewing and setting resource levels and priorities for various programs and bureaus financed by this appropriation.

—The budgeting, financial planning, and fiscal operations for bureaus and offices financed by this appropriation.

—The contracting and procurement of services and supplies, maintenance and repair of equipment and property (including the operation and routine maintenance of property directly leased or owned by the Department), vehicle operation, and shipping and customs services.

—Rental payments to the General Services Administration for domestic space occupied by the Department.

**Security Programs.**—This activity provides for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. The salaries paid to Department employees who carry out the security protection function worldwide are included in the Human Resources program activity. This activity identifies resources that are used in meeting security and counterterrorism responsibilities, both foreign and domestic. Programs covered in this activity include but are not limited to: security operations; engineering services, which are related to the technical defense of U.S. Government personnel and establishments abroad against electronic and physical attack; homeland security related activities; protection of Department personnel and foreign dignitaries; and physical security operations.

The Overseas Contingency Operations funding requested for Diplomatic and Consular Programs (D&CP) will address the extraordinary and temporary costs associated with deploying, securing and supplying the Department's civilian presence in Iraq, Afghanistan, and Pakistan. The request for Iraq supports the diplomatic presence in Baghdad and the provinces, including the full-year costs for security and logistical support. The embassy and consulates play a vital role in building relationships with the Iraqi people, managing ongoing programs and mitigating potential conflict. The requests for Afghanistan and Pakistan support implementation of a comprehensive diplomatic and development strategy to defeat Al Qaida and support the Afghan people. D&CP funding for both countries enables a civilian presence, including diplomats, development specialists, and civilian expertise from across the U.S. Government, along with critical security and logistical support. In all locations, these temporary funds are decreasing as the civilian presence becomes more normalized.

Under the direction of the Secretary of State, the overall mission of the Bureau of Overseas Buildings Operations (OBO) is to provide U.S. diplomatic and consular missions abroad with safe, secure, and functional facilities that support the foreign policy objectives of the United States. Specific program functions include: providing guidance to posts, the regional bureaus and other foreign affairs agencies on the renovation, construction and operations of facilities; providing expert space and facilities planning; managing and overseeing the design, construction, and renovation of mission facilities; incorporating security features into overseas and domestic facilities; and ensuring the security of facilities during construction or renovation. In addition, OBO is responsible for establishing standards and policies for overseas housing, developing, in conjunction with posts, effective maintenance programs for post facilities, and monitoring and reporting the inventory of maintenance and backlog requirements. OBO also ensures the safety of the building occupants through the development of fire/life safety and accessibility compliance programs.

In 2014, the Department will manage the tenth year of the Capital Security Cost Sharing (CSCS) Program. This program has two main goals: accelerating the construction of new safe, secure and functional embassy and consulate compounds, and providing an incentive for all United States Government agencies to right-size their presence overseas through the use of cost-sharing. The total requested program level of \$2.2 billion reflects the Benghazi Accountability Review Board recommended funding level and restores the program's lost purchasing power since its initial authorization.

The 2014 request continues the Maintenance Cost Sharing (MCS) Program to provide critically needed renovation, construction and repair of overseas facilities, to provide adequate working conditions for multi-agency staffs, and protect the U.S. taxpayer investment. Including cost sharing from other agencies, MCS will be funded at \$167 million to maintain overseas facilities in 2014.

In this transition year, this account includes additional amounts for both the CSCS and MCS programs that will not be cost-shared with other agencies.

The objective of the Asset Management Program is to obtain the best use of diplomatic and consular properties overseas through sale of surplus or underutilized properties and reinvestment of the proceeds in properties that provide a greater return to the U.S. Government and/or improve the safety of mission personnel. In lieu of appropriated resources, OBO uses asset sales proceeds for long-term capital investment to minimize the growth of U.S. Government leasehold requirements (through property acquisition) or to address a high-priority need for new construction or fit-out of leased space.

This appropriation also provides for capital expenditures necessary to preserve, maintain, repair, and plan for buildings owned or leased by the Department of State overseas or in the United States, including the renovation of the Harry S. Truman building where required.

The current appropriation finances any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. In addition, the appropriation also finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions.

The 2014 permanent appropriation provides a payment to the fund for disbursements attributable to the Foreign Service Pension System; and unfunded interest along with liability from military service for the Foreign Service Retirement and Disability System.

This is a retirement fund for Locally Employed Staff (LES) employed by the Department of State and other Foreign Affairs agencies. The purpose of the fund is to accumulate and distribute U.S. Government contributions for end-of-service benefits for LES at overseas U.S. missions where it has been determined that participation in the local social security system is not in the public interest. The State Department determines which countries are eligible to participate in the fund. Upon separation, payments will be made from the fund as a lump sum paid directly to the employee.

This fund, authorized by sections 13 and 23 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684), finances on a reimbursable basis certain administrative services, such as printing and reproduction, editorial material, motor pool operations and dispatch agencies operations, inter-agency cooperative administrative support services, acquisition services, information technology desktop support, aviation services, and expenses of carrying out the Foreign Missions Act, including any acquisitions of property under section 204(f) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 4304(f)).

Using the Working Capital Fund, the International Cooperative Administrative Support Services (ICASS) program was fully implemented in 1998. ICASS restructures overseas administrative support activities to allow more decision-making and managerial participation by all participating agencies, more equitable cost distribution, and incentives for efficient provision of services. Under ICASS, each agency represented at an overseas post chooses the services it wishes to receive and pays a proportional share of the cost of those services. Working through inter-agency councils at each overseas post, all agencies have a say in determining post administrative budgets and defining service standards, as well as reviewing costs and vendor performance.

This appropriation provides the U.S. share of operating expenses for ten treaty-based international fisheries commissions and organizations, two international marine science organizations, one whaling commission, the Arctic Council and the Antarctic Treaty Secretariat, as well as funding regional sea turtle and shark conservation, and travel expenses of non-government U.S. commissioners and their advisors. These commissions and organizations coordinate scientific studies of shared fish stocks and other living marine resources and their habitats and establish common management measures to be implemented by member govern-

ments based on their results. Many also oversee the allocation of fishing rights to their members. In addition, the Great Lakes Fishery Commission carries out a program to eradicate the invasive, parasitic sea lamprey. The marine science organizations coordinate international research on valuable fisheries, oceanography, and marine ecosystems and the results are publicly disseminated and used to advise member governments on fisheries and marine science policy.

The first phase of the President's Emergency Plan for AIDS Relief (PEPFAR), from 2004 to 2008, was the largest ever global public health initiative by a single country to fight the HIV/AIDS epidemic. Funding was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. Beginning in 2008, funds were appropriated in the Global Health and Child Survival (now Global Health Programs) account, and will continue to be requested in that account.

## FUNDS APPROPRIATED TO THE PRESIDENT

*For necessary expenses to enable the President to carry out the provisions of the Foreign Assistance Act of 1961, and for other purposes, as follows:*

**GLOBAL HEALTH PROGRAMS**  
(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961, for global health activities, in addition to funds otherwise available for such purposes, \$2,645,000,000, to remain available until September 30, 2015, and which shall be apportioned directly to the United States Agency for International Development (USAID): Provided, That this amount shall be made available for training, equipment, and technical assistance to build the capacity of public health institutions and organizations in developing countries, and for such activities as: (1) child survival and maternal health programs; (2) immunization and oral rehydration programs; (3) other health, nutrition, water and sanitation programs which directly address the needs of mothers and children, and related education programs; (4) assistance for children displaced or orphaned by causes other than AIDS; (5) programs for the prevention, treatment, control of, and research on HIV/AIDS, tuberculosis, polio, malaria, and other infectious diseases including neglected tropical diseases, and for assistance to communities severely affected by HIV/AIDS, including children infected or affected by AIDS; and (6) family planning/reproductive health: Provided further, That funds appropriated under this paragraph may be made available for a United States contribution to the GAVI Alliance: Provided further, That none of the funds made available in this Act nor any unobligated balances from prior appropriations Acts may be made available to any organization or program which, as determined by the President of the United States, supports or participates in the management of a program of coercive abortion or involuntary sterilization: Provided further, That none of the funds made available under this Act may be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions: Provided further, That nothing in this paragraph shall be construed to alter any existing statutory prohibitions against abortion under section 104 of the Foreign Assistance Act of 1961: Provided further, That none of the funds made available under this Act may be used to lobby for or against abortion: Provided further, That in order to reduce reliance on abortion in developing nations, funds shall be available only to voluntary family planning projects which offer, either directly or through referral to, or information about access to, a broad range of family planning methods and services, and that any such voluntary family planning project shall meet the following requirements: (1) service providers or referral agents in the project shall not implement or be subject to quotas, or other numerical targets, of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning (this provision shall not be construed to include the use of quantitative estimates or indicators for budgeting and planning purposes); (2) the project shall not include payment of incentives, bribes, gratuities, or financial reward to: (A) an individual in exchange for becoming a family planning acceptor; or (B) program personnel for achieving a numerical target or quota of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning; (3) the project shall not deny any right or benefit, including the right of access to participate in any program of general welfare or the right of access to health care, as a consequence of any individual's decision not to accept family planning services; (4) the project shall provide family planning acceptors comprehensible information on the health benefits and risks of the method chosen, including those conditions that might render the use of the method inadvisable and those adverse side effects known to be consequent to the use of the method; and (5) the project shall ensure that experimental contraceptive drugs and devices and medical procedures are provided only in the context of a scientific study in which participants are advised of potential risks and benefits; and, not less than 60 days after the date on which the USAID Administrator determines that there has been a violation of the requirements contained in paragraph (1), (2), (3), or (5) of this proviso, or a pattern or practice of violations of the requirements contained in paragraph (4) of this proviso, the Administrator shall submit to the Committees on Appropriations a report containing a description of such violation and the corrective action taken by the Agency: Provided further, That in awarding grants for natural family planning under section 104 of the Foreign Assistance Act of 1961 no applicant shall be discriminated against because of such applicant's religious or conscientious commitment to offer only natural family planning; and, additionally, all such applicants shall comply with the requirements of the previous proviso: Provided further, That for purposes

of this or any other Act authorizing or appropriating funds for the Department of State, foreign operations, and related programs, the term "motivate", as it relates to family planning assistance, shall not be construed to prohibit the provision, consistent with local law, of information or counseling about all pregnancy options: Provided further, That information provided about the use of condoms as part of projects or activities that are funded from amounts appropriated by this Act shall be medically accurate and shall include the public health benefits and failure rates of such use.

In addition, for necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961 for the prevention, treatment, and control of, and research on, HIV/AIDS, \$5,670,000,000, to remain available until expended, which shall be apportioned directly to the Department of State: Provided, That funds appropriated under this paragraph may be made available, notwithstanding any other provision of law, except for the United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003 (Public Law 108-25), as amended, for a United States contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria (Global Fund), and shall be expended at the minimum rate necessary to make timely payment for projects and activities: Provided further, That up to 5 percent of the aggregate amount of funds made available to the Global Fund in fiscal year 2014 may be made available to USAID for technical assistance related to the activities of the Global Fund: Provided further, That of the funds appropriated under this paragraph, up to \$14,250,000 may be made available, in addition to amounts otherwise available for such purposes, for administrative expenses of the Office of the United States Global AIDS Coordinator.

Note.—A full-year 2013 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Resolution, 2013 (P.L. 112-175). The amounts included for 2013 reflect the annualized level provided by the continuing resolution.

The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID), representing the majority of funds provided for the President's Global Health Initiative (GHI). GHI seeks to improve health outcomes by adopting a women, girls, and gender-equity approach to health; increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics, monitoring and evaluation; and promoting research, development and innovation.

**Global Health Programs-State.**—Within GHI, the Global Health Programs (GHP-State) account supports the goal of creating an AIDS-free generation through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2014 Budget requests \$5.7 billion in the GHP-State account, representing the bulk of PEPFAR funding. PEPFAR is led by the Office of the Global AIDS Coordinator in DOS, which draws upon the expertise and experience of other USG partners such as the U.S. Agency for International Development (USAID), the Department of Health and Human Services, the Department of Defense, and the Peace Corps to bring the full force of our government's capacity to the fight against global AIDS. Programs work through expanded partnerships to build capacity for effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, PEPFAR supports implementation of strong monitoring and evaluation systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. As part of GHI, PEPFAR integrates its efforts with important programs in other areas of global health as well as other areas of development, including the areas of education,

gender equity, and economic development. A contribution of \$1.65 billion to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in the GHP-State request.

**Global Health Programs-USAID.**—The 2014 Budget requests \$2.6 billion in the GHP-USAID account for a comprehensive and integrated approach to improve global health outcomes as outlined in GHI. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. Funding includes activities that support the goal of ending preventable child deaths, and—in synergy with the Feed the Future Initiative—support nutrition activities, addressing such issues as micronutrient and iodine deficiencies. GHP-USAID funding will also promote voluntary family planning/reproductive health, pursue polio eradication, support activities directed at vulnerable children, reduce HIV transmission and the impact of the global HIV/AIDS epidemic in high-burden countries, and address the threat of other infectious diseases such as tuberculosis and multi-drug resistant tuberculosis, malaria, influenza and other pandemic diseases, and neglected tropical diseases in developing countries.

Health programs formerly funded through the Assistance for Europe, Eurasia and Central Asia account are now being requested in the GHP account.

## MIGRATION AND REFUGEE ASSISTANCE—Continued

**Overseas Assistance.**—The majority of the Migration and Refugee Assistance (MRA) account addresses the protection and assistance needs of refugees, conflict victims, stateless persons, and vulnerable migrants worldwide. Funds primarily support the programs of international organizations, including the United Nations High Commissioner for Refugees (UNHCR), the International Committee of the Red Cross (ICRC), the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), and the International Organization for Migration (IOM), as well as non-governmental organizations (NGOs).

**Humanitarian Migrants to Israel.**—These funds assist humanitarian migrants resettling in Israel.

**U.S. Refugee Admissions.**—MRA funds overseas processing, transportation, and initial placement for refugees and certain other categories of special immigrants resettling in the United States. These activities are carried out primarily by NGO partners and IOM.

**Administrative Expenses.**—These funds finance the salaries and operating expenses in Washington, D.C. and overseas for the Bureau of Population, Refugees, and Migration. (Note: Funds for the salaries and support costs of the positions dedicated to international population policy and coordination are requested under the Department of State's Diplomatic and Consular Programs appropriation.)

The Emergency Refugee and Migration Assistance Fund enables the President to provide humanitarian assistance for unexpected and urgent refugee and migration needs worldwide. The 2014 request of \$250 million will allow the United States to respond quickly to urgent and unexpected needs of refugees and other populations of concern, including, but not limited to, emergency humanitarian needs in Syria. The ability to use the funds for either refugees or for other populations inside a country is crucial to respond effectively to evolving needs during crises. To meet these needs, the appropriations language provides that these funds can be transferred to International Disaster Assistance as appropriate, after the President has made the requisite determination under section 2(c)(1) of the Migration and Refugee Assistance Act of 1962.

The Complex Crises Fund provides funding to support the State Department and U.S. Agency for International Development's rapid response capabilities for assistance activities to prevent or respond to emerging or unforeseen complex crises. Managed by USAID, the funds will target countries or regions that demonstrate a high or escalating risk of conflict or instability, or present an unanticipated opportunity for progress in a newly-emerging or fragile democracy. Projects aim to address and prevent root causes of conflict and instability through a whole-of-government approach and can include the participation of host governments and other partners. The request includes authority to transfer funds to the Civilian Stabilization Operations account to provide program funding for the Civilian Response Corps.

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) has the statutory goal of providing assistance to the poorest countries in the world to promote economic growth, eliminate extreme poverty, and strengthen good governance, economic freedom, and investments in people. Since its inception, MCC has signed compacts with 25 countries totaling over \$9.1 billion. These investments help foster stability through economic growth and poverty reduction in partner countries. MCC encourages policy reforms by working with only those countries that have created the conditions for growth by ruling justly, investing in their people, and committing

to economic freedom, with a particular emphasis on fighting corruption and maintaining democratic rights. Countries develop their poverty reduction proposals in broad consultation with their own civil society and MCC. MCC compacts specifically define the implementation responsibilities of partner countries, including financial accountability and transparent and fair procurement practices, and require measurable results to ensure that MCC assistance is used responsibly and effectively.

This account supports U.S. foreign policy objectives by providing economic assistance to allies and countries in transition to democracy, supporting Middle East peace efforts, increasing stability in conflict/post-conflict environments, and financing economic stabilization programs, frequently in a multi-donor context. Key objectives include:

1) Supporting strategically significant friends and allies through assistance designed to increase the role of the private sector in the economy, reduce government controls over markets, enhance job creation, and improve economic growth.

2) Developing and strengthening institutions necessary for sustainable democracy. Typical areas of assistance include technical assistance to administer and monitor elections, capacity-building for non-governmental organizations, judicial training, and women's participation in politics. Assistance is also provided to support the transformation of the public sector to encourage democratic development, including training to improve public administration; to promote decentralization; and to strengthen local governments, parliaments, independent media and non-governmental organizations.

3) Strengthening the capacity of partner governments to manage the human dimension of transitions out of instability and to help sustain the neediest sectors of the population during the transition period.

This account also includes funding for alternative development programs.

**AEECA Normalization:** In order to support the Administration's highest priorities globally in a constrained budget environment, and in recognition of the achievement of a number of assistance goals in the Europe, Eurasia, and Central Asia region over time, the 2014 Budget normalizes foreign assistance resources for the countries of this region. Appropriations for programs formerly funded through the Assistance for Europe, Eurasia and Central

The Economic Support Fund (ESF) Overseas Contingency Operations (OCO) account includes the extraordinary costs of our involvement in Afghanistan and Pakistan.

OCO funds will be used in Afghanistan for limited-term priorities linked to remaining stabilization needs, as well as to support the foundational investments in critical sectors and capacity building that are essential to economic stability and the long-term sustainability of the transition of security and governance to the Government of Afghanistan.

Non-Overseas Contingency Operations (OCO) funding for Afghanistan in the ESF account supports core development programs that must endure to secure Afghanistan's medium- and long-term development and strengthen its resiliency to the economic, security, and governance challenges associated with transition.

For Pakistan, OCO assistance will support development in areas of conflict and instability in order to help make these areas less hospitable to insurgents, while enabling the civilian government and Pakistani law enforcement to operate more effectively.

Non-OCO resources for Pakistan will support development assistance programs that will further the foundation for a stable economic and a strong democratic government that is responsive to its people.

The request includes \$511 million of Foreign Military Financing as part of the Overseas Operations Contingency budget for the temporary and extraordinary costs of the Iraq program. \$500 million in funding will support the continued development and professionalization of the Iraqi military, which is critical to Iraq's full assumption of security responsibilities. This funding, in synchronization with Iraqi investments in key defense articles, will target programs that build lasting logistics, sustainment, training, and education capabilities. \$11 million will support the operations of the Office of Security Cooperation-Iraq so that security assistance can be properly delivered to the Iraqi military while adequately protecting and providing life support for U.S. personnel operating in Iraq.

The Administration is not requesting funding in 2014 for the Pakistan Counterinsurgency Capability Fund (PCCF). The Fund was designed to build the counterinsurgency capabilities of Pakistan's security forces engaged in operations against militant extremists in the Federally Administered Tribal Areas (FATA) and Khyber-Pakhtunkhwa. While the counterinsurgency purpose underlying the PCCF account and the maintenance of close U.S. Pakistani military ties remain important Administration priorities, these needs will be met through other accounts, including Foreign Military Financing (FMF) and International Military Education and Training (IMET).

This assistance provides grants for foreign military and civilian personnel to attend military education and training provided by the United States Government either at U.S. military schools or by trainers in country. In addition to helping these countries professionalize their militaries, this program also exposes foreign students to American democratic values, particularly respect for civilian control of the military and for internationally recognized standards of individual and human rights.

The Foreign Military Financing Direct Loan Program (FMFDLP) Account is a program account established pursuant to the Federal Credit Reform Act (FCRA) of 1990, as amended, to provide the funds necessary for the subsidy element of loans. As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans for foreign military financing obligated in 1992 and after. The foreign military financing credit program provides loans that finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. The amounts in this account are a means of financing and are not included in budget totals. Expenditures from this account finance the subsidy element of direct loan disbursements and are transferred into the Foreign Military Financing Direct Loan Financing (FMFDLF) Account to make required loan disbursements for approved FMS or commercial sales. The FMFDLF is a financing account used to make disbursements of Foreign Military Loan funds for approved procurements and for subsequent collections for loans after September 30, 1991. The account uses permanent borrowing authority from the U.S. Treasury combined with transfers of appropriated funds from the Foreign Military Financing Direct Loan Program (FMFDLP) Account to make required disbursements to loan recipient country

The Foreign Military Loan Liquidating Account (FMLLA) is a liquidating account that records all cash flows to and from the Government resulting from direct loans obligated and loan guarantees for foreign military financing committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

As required by the Federal Credit Reform Act of 1990, the Military Debt Reduction Financing (MDRF) Account is a non-budgetary financing account that records all cash flows to and from the Government resulting from restructuring foreign military loans. The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103-87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans from the FMLLA, thus transferring the loans from the FMLLA Account to the MDRF Account.

The Clean Technology Fund (CTF) is an ongoing multibillion dollar effort to reduce the growth of greenhouse gas emissions in developing countries by catalyzing large-scale private and public investments through financing the additional costs of commercially available cleaner technologies over dirtier, conventional alternatives. By funding the extra cost of the cleaner technology, the CTF incentivizes cleaner projects that leverage development bank financing and attract new investor capital into low-carbon sectors. The CTF, one of the two multilateral Climate Investment Funds (CIFs), leverages the capital bases and country program expertise of the multilateral development banks (MDBs). To receive funding, eligible countries must first develop credible national investment plans that identify key high-emissions sectors where targeted projects could stimulate low-carbon growth and the scalable uptake of clean technologies. Since 2009, the CTF's governing committee has endorsed 16 such plans with a combined CTF funding envelope of \$5.5 billion and total planned investments of over \$43 billion. As of September 2012, the CTF has approved 38 individual projects using \$2.2 billion in funding. The 38 approved projects have attracted co-financing of \$18.2 billion from recipient governments, the private sector, and the MDBs. The 2014 Budget includes \$215.7 million to meet a portion of the remaining U.S. commitment to the CTF.

The Strategic Climate Fund (SCF) is a suite of three programs to pilot innovative approaches and scaled-up activities aimed at specific climate change-related challenges in developing countries. The Pilot Program for Climate Resilience (PPCR) helps the most vulnerable populations in very poor countries better prepare for and respond to the effects of climate change through innovative development plans, strategies, and projects. The PPCR pilot programs are for Bangladesh, Bolivia, Cambodia, Mozambique, Nepal, Niger, Tajikistan, Yemen, Zambia, the Caribbean region (Dominica, Grenada, Haiti, Jamaica, Saint Lucia, Saint Vincent and the Grenadines), and the Pacific region (Papua New Guinea, Samoa, and Tonga). The value of planned PPCR investments is over \$925 million. The Forest Investment Program (FIP) helps protect our global forests by reducing deforestation in developing countries through improved governance and forest management, and by addressing the drivers of deforestation. The FIP pilot programs are Brazil, Burkina Faso, Democratic Republic of Congo, Ghana, Indonesia, Laos, Mexico, and Peru. The value of planned FIP investments is \$400 million. The Program for Scaling-Up Renewable Energy in Low Income Countries (SREP) will demonstrate the economic, social, and environmental viability of low-carbon development pathways in very poor countries. The SREP pilot programs are for Ethiopia, Honduras, Kenya, Maldives, Mali, Nepal, and Tanzania. The value of planned SREP investments is \$210 million. The 2014 Budget includes \$68 million to meet a portion of the remaining U.S. commitment to the SCF.

The Global Agriculture and Food Security Program (GAFSP) is a multilateral mechanism that funds projects supporting the agricultural investment plans of poor countries. The GAFSP, which is administered by the World Bank, leverages the expertise and implementing structures of other multilateral institutions such as the International Fund for Agricultural Development, the World Bank, and the regional development banks. Since its inception in 2010 through December 2012, the GAFSP has awarded grants totaling \$658 million for investments in 18 countries. These investments are expected to help 8.2 million smallholder farmers and their families increase their income and strengthen their nutritional outcomes. These grants were funded from contributions from the United States, Canada, Ireland, South Korea, Australia, Spain, the United Kingdom, and the Bill and Melinda Gates Foundation. The private sector window, which provides financing to small and medium-sized agribusinesses and small-holder farmers, has awarded \$30 million, funded from contributions from the United States, Canada, and the Netherlands. The 2014 Budget includes \$135 million as the first payment under the new U.S. pledge to commit \$1 for every \$2 contributed by other donors up to a total U.S. contribution of \$475 million.

The International Bank for Reconstruction and Development (IBRD or World Bank) provides financing and technical assistance to support infrastructure investment and policy reform. IBRD operations are designed to promote sustainable economic growth, reduce poverty, and raise living standards, including through targeted investments in infrastructure, basic human needs, private-sector development, and core policy reforms. The IBRD is the "hard loan" window of the World Bank Group, while the International Development Association (IDA) is the "soft loan", or concessional, window of the World Bank Group. In 2012, the IBRD made new commitments of \$20.6 billion, including 93 operations. Since its establishment in 1945, the IBRD has made loans totaling almost \$573 billion. The 2014 Budget provides \$117.4 million for the third of five installments for the IBRD's general capital increase. In addition, the 2014 Budget includes the second installment of \$70 million for the IBRD's selective capital increase (SCI). Treasury requested and obtained author-

ization to subscribe to the SCI in 2012, and Treasury requested an authorization for appropriations for the SCI in 2013.

## Global Environment Facility

The Global Environment Facility (GEF) is the largest funder of projects to improve the global environment, providing grants to address issues related to biodiversity, clean energy and sustainable landscapes, oceans, land degradation, and chemical pollution. The GEF supports innovative, cost-effective investments that can be replicated and scaled up by the public and private sectors. In 2012, the GEF made new commitments of \$1.25 billion. Since its establishment in 1991, the GEF has allocated \$10.5 billion, supplemented by more than \$51 billion in co-financing, to fund more than 2,900 projects in 168 developing countries. In 2010, donor governments agreed on the fifth replenishment of the GEF (GEF-5) for 2011–2014. The U.S. pledged \$575 million over four years. Cumulative unpaid commitments to the GEF totaled \$229 million at the end of 2012, the largest of any donor. The 2014 Budget includes \$143.8 million for the fourth of four scheduled installments of GEF-5.

## Transition Fund

The Deauville Partnership Transition Fund is a new multi-donor trust fund established to assist members of the Deauville Partnership with Arab Countries in Transition—currently Egypt, Tunisia, Jordan, Morocco, Libya, and Yemen. As these countries work to address their diverse economic challenges, the fund will help promote a broad reform agenda and support inclusive development. The Transition Fund provides grants to countries for diagnostic analyses, technical advice, and initial implementation of targeted policy initiatives and reforms. A wide range of countries have already provided or committed to provide funding to the Transition Fund, including the United Kingdom, Saudi Arabia, Canada, France, Japan, Russia, Kuwait, and Qatar. Treasury requests \$5 million for a contribution to the Transition Fund in 2014.

*For payment to the International Development Association by the Secretary of the Treasury to satisfy commitments made by the United States to support the Multilateral Debt Relief Initiative, including through generation of early encashment credits, \$145,300,000, to remain available until expended.*

Note.—A full-year 2013 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Resolution, 2013 (P.L. 112–175). The International Development Association (IDA) is a member of the World Bank Group and provides concessional development financing and grants to the world's poorest nations. IDA is the single largest source of multilateral lending extended on concessional terms to developing countries. Since its establishment in 1960, IDA has made commitments totaling \$250 billion. IDA resources for new lending are funded primarily by donor contributions coordinated through a cycle of three-year replenishments, and are augmented by earnings, repayments of existing loans, and transfers of income from the non-concessional lending windows of the World Bank.

Under the sixteenth replenishment of resources (IDA-16), IDA will provide \$49.2 billion in resources over the period from mid-2011 through mid-2014. During its fiscal year 2012, IDA made new commitments of \$14.8 billion. The largest regional share of 2012 IDA resources was committed to Africa, which received \$7.4 billion.

The 2014 Budget includes \$1,358.5 million for the third of three scheduled installments under IDA-16. The U.S. pledge for IDA-16 is \$4,075.5 billion over three years.

**Multilateral Debt Relief Initiative**

The Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the International Development Association (IDA) and the African Development Fund (AfDF) for countries that reach completion point under the Heavily Indebted Poor Countries (HIPC) initiative. The HIPC initiative entails coordinated action by governments and international financial institutions to reduce the external debt burdens of HIPC countries to sustainable levels. The MDRI goes further by providing irrevocable debt stock reduction in order to free up additional resources for poverty reducing expenditures. Donors have committed to compensate IDA and the AfDF "dollar for dollar" for the roughly \$50 billion in MDRI-related foregone reflows over the 50-year MDRI period (2004 to 2054). The 2014 Budget includes \$145.3 million to help cover the U.S. share of the cost of MDRI at IDA under the IDA-16 replenishment.

A portion of the funds requested for MDRI will be used as a contribution to the outstanding U.S. commitment to the IDA-16 replenishment. This payment will simultaneously generate early

encashment credits used to satisfy the U.S. commitment to MDRI (the U.S. receives early encashment credits when it contributes to the IDA replenishment on an accelerated schedule). This approach is consistent with the use of resources appropriated for MDRI in 2012. The 2014 Budget includes revised MDRI appropriations language to clarify the manner in which this payment will be executed without expanding existing authorities.

The Multilateral Investment Guarantee Agency (MIGA) is a member of the World Bank Group. MIGA is designed to encourage the flow of foreign private investment to and among developing countries by issuing guarantees against non-commercial risks and carrying out investment promotion activities. In 2012, MIGA issued 50 guaranteed contracts, with a net exposure of \$6.3 billion. Negotiations on MIGA's first general capital increase (GCI) were completed in 1998. The United States committed to contribute a total of \$30 million in paid-in capital and nearly \$140 million in callable capital over three years. The GCI decision included commitments from MIGA on a range of policy issues of substantial importance to the United States, including environment, information disclosure, labor, and creation of an inspection function for greater accountability and transparency. In 2000, the Administration sought and received congressional authorization for the United States' full participation in the MIGA GCI. No request is being made for MIGA for 2014.

The Inter-American Development Bank (IDB) promotes sustainable economic growth, poverty reduction, private sector development, and good governance in Latin America and the Caribbean through targeted loans and technical assistance. In 2012, the IDB approved 196 operations worth \$11.4 billion. Since its inception, the IDB has approved a total of \$220 billion in loans. The IDB provides financing through: 1) the Ordinary Capital (OC) window that lends at market-based rates, and 2) the Fund for Special Operations (FSO), which provides financing on concessional terms to the region's poorest nations.

The 2014 Budget provides \$102.0 million for the third of five installments for the IDB's Ninth General Capital Increase (GCI). In addition to providing resources needed to meet key development challenges in the Western Hemisphere, the capital increase negotiations provided the United States and other shareholders the opportunity to consolidate key institutional reforms and improve the strategic direction of the IDB in assuring sound finances, effective management and governance, safeguards, transparency and accountability, disclosure, and continued focus on core missions including the needs of the poorest populations.

#### Inter-American Investment Corporation

The Inter-American Investment Corporation (IIC), a member of the Inter-American Development Bank Group established in 1984, promotes development of private small- and medium- sized enterprises (SMEs) in Latin America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the Inter-American Development Bank itself. Through direct loans and equity investments in SMEs, as well as through lending to private financial intermediaries, the IIC helps SMEs in the region access the medium- and long-term capital necessary to start up, expand, or modernize operations. In 2012, the IIC approved 62 projects totaling \$301.7 million. Since its inception, the IIC has approved a total of \$4.72 billion in commitments.

The Asian Development Bank (AsDB) Group promotes broad-based sustainable economic growth and development, poverty alleviation, and regional cooperation and integration in the Asia-Pacific region. It has two main financing windows: 1) the Asian Development Bank's "hard-loan" window (known as the Ordinary Capital Resources (OCR) window); and 2) the Asian Development Fund's (AsDF) "soft-loan" window, which lends at concessional rates to the region's poorest nations.

#### Asian Development Bank

AsDB OCR operations provide loans, technical assistance, and policy advice to 24 creditworthy developing economies in Asia. Through its operations, which include construction of schools, bridges, health clinics, and roads, the AsDB supports U.S. economic, security, and humanitarian interests by strengthening new sources of global growth, providing opportunities for people to lift themselves out of poverty, and increasing opportunities for U.S. suppliers of goods and services. The AsDB's comparative advantage is in financing infrastructure projects in core sectors such as energy, transport, and water. In 2012, the AsDB made

## CONTRIBUTION TO THE ASIAN DEVELOPMENT BANK—Continued

\$10 billion in commitments for operations in these and other areas. The 2014 Budget includes \$106.6 million for the fourth of five scheduled paid-in capital contributions to the AsDB's fifth general capital increase. This capital increase was necessary to avoid a precipitous decline in lending during the global financial crisis in a region where 1.7 billion people—nearly a quarter of the world's population—still live on less than two dollars per day.

## Asian Development Fund

The AsDF is a key source of concessional financing for development in the 20 poorest countries of the Asia-Pacific region. The AsDF focuses on the construction of critical infrastructure such as roads, water and sanitation, electricity grids, and schools. In 2012, AsDF commitments totaled over \$3.5 billion. The AsDF is also a major U.S. partner in Afghanistan, committing over \$2.8 billion in the country since 2002. The AsDF's work has been recognized by the U.S. national security community as critical to the success of our security and political objectives there. The 2014 Budget includes \$115.3 million for the AsDF. Of this total, \$89.9 million will serve as the first of four contributions under the tenth replenishment of the Asian Development Fund (AsDF11). This amount is consistent with the outcome of the AsDF11 negotiations in early 2012, when the U.S. pledged \$359.6 million over four years (2014–2017), a 22 percent reduction from the amount pledged during the previous AsDF replenishment. The remaining \$25.4 million for AsDF in the 2014 Budget will be used for partial clearance of outstanding U.S. commitments to the AsDF, which currently total over \$326 million. This payment is part of a multi-year plan to address these outstanding U.S. commitments.

The African Development Bank Group is composed of 1) the African Development Bank (AfDB), which lends at prevailing rates to middle-income countries and private-sector borrowers in middle- and low-income countries; and 2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries.

## African Development Bank

In 2012, the AfDB approved new projects, programs, and equity investments amounting to about \$2.8 billion. Since operations began in 1967, the AfDB has financed projects, programs, and equity investments amounting to about \$59 billion. The 2014 Budget includes \$32.4 million for the third of eight payments for the sixth general capital increase of the AfDB (GCI-6). In May 2010, AfDB Governors agreed to a general capital increase to support an increase in the AfDB's sustainable lending capacity from \$1.8 billion per year to \$5 billion per year.

## African Development Fund

The AfDF approved \$2.26 billion for new projects and programs in 2012. Since operations began in 1974, AfDF financing has totaled \$40 billion. In September 2010, the United States and other donor countries reached agreement on the twelfth replenishment of the African Development Fund (AfDF-12), which is providing approximately \$3 billion per year in development financing for low-income countries in Africa. The 2014 Budget provides \$195 million for the third of three installments of the U.S. contribution to AfDF-12, which covers the period from 2012 to 2014.

## Multilateral Debt Relief Initiative

The Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the International Development Association (IDA) and the African Development Fund (AfDF) for countries that reach completion point under the Heavily Indebted Poor countries (HIPC) initiative. The HIPC initiative entails coordinated action by governments and international financial institutions to reduce the external debt burdens of HIPC countries to sustainable levels. The MDRI goes further by providing irrevocable debt stock reduction in order to free up additional resources for poverty reducing expenditures. Donors have committed to compensate IDA and the AfDF "dollar for dollar" for the roughly \$50 billion in MDRI-related foregone reflows over the 50-year MDRI period (2004 to 2054). The 2014 Budget includes \$30 million to help cover the U.S. share of the cost of MDRI at AfDF under the AfDF-12 replenishment. The 2014 Budget includes revised MDRI appropriations language to

clarify the manner in which this payment will be executed without expanding existing authorities.

#### CONTRIBUTION TO THE EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT

The European Bank for Reconstruction and Development (EBRD) supports market-oriented economic reform and democratic pluralism predominately through private-sector lending and investments. Its original field of operation in the countries of Central and Eastern Europe and the former Soviet Union was expanded in 2012 to aid in the transitions of key countries in the Middle East and North Africa. The United States and other shareholders signed the articles of agreement of the EBRD on May 29, 1990, and the Bank officially began operating on April 15, 1991. In April 1996, shareholders approved a doubling of the EBRD's capital base from EUR 10 billion to EUR 20 billion (approximately \$24 billion), which went into effect in April 1997. In 2012, the United States provided \$1.25 billion in temporary callable capital to support increased resource demands that resulted from the 2008 financial crisis.

#### NORTH AMERICAN DEVELOPMENT BANK

The North American Development Bank (NADBank) provides financing for environmental infrastructure projects along the U.S.-Mexico border region. A portion of its capital also finances North American Free Trade Agreement (NAFTA)-related community adjustments and investment projects in both countries. Under NADBank's charter, the United States and Mexico contributed equally to NADBank's capital, a total contribution of \$450 million in paid-in capital and \$2.6 billion in callable capital.

NADBank finances environmental infrastructure projects that have been certified by the U.S.-Mexico Border Environmental Cooperation Commission (BECC), the sister institution designed to assist border states and local communities in identifying, designing, and coordinating border projects on both sides of the U.S.-Mexico border.

As of December 2012, NADBank had approved \$1,469 million in loans for 78 projects and \$89.78 million in grants for 40 projects. The Bank has also administered \$592.7 million in EPA-funded grants to 100 projects in Mexico and the United States. The total investment value of all the projects to which it provides or administers funding is approximately \$5.45 billion.

The Multilateral Investment Fund (MIF), administered by the Inter-American Development Bank, provides grants and loans to support private-sector development, as well as financial and labor sector reforms, in Latin America and the Caribbean. Special consideration is given to reforms that promote privatization and encourage private foreign direct investment. Grants and loans are used for technical assistance to identify and resolve investment constraints, for investment in human capital, and for business infrastructure and development. In 2012, the MIF approved 85 projects totaling \$104.8 million. Since its inception in 1992, the MIF has approved over 1,600 projects, for which the MIF contribution totaled \$1.9 billion.

The United States made a \$500 million commitment to the MIF in 1992. Negotiations were completed in early 2005 for the first replenishment of the MIF (MIF-II), with a United States commitment of \$150 million to be paid in six equal annual installments. The United States achieved its key objectives in these negotiations: strengthening the commitment to measurable results, increasing efficiency, maintaining a focus on grants, allocating resources to maximize innovation, and reforming Inter-American Development Bank procurement. Treasury requests \$6.3 million in 2014 to clear a portion of U.S. arrears to the MIF.

The International Fund for Agricultural Development (IFAD) was established in 1977 as a multilateral financial institution focused on promoting rural agricultural development and food security in poorer countries. IFAD's specific mandate is to help rural small-scale producers and subsistence farmers increase their productivity and incomes, improve food security, and to integrate them into larger markets.

In December 2011, negotiations were concluded on IFAD's ninth replenishment (IFAD-9). The U.S. pledged a total of \$90 million. This pledge will leverage resources to support a work program of almost \$1 billion per year over the three-year replenishment period of 2013–2015. The 2014 Budget includes \$30 million for the second of three scheduled contributions under IFAD-9.

Pursuant to OTA's authorizing statute, OTA provides technical assistance to facilitate the implementation of policy, management, and administrative reforms in the areas of budget, revenue, government debt, financial institutions and financial enforcement to developing and transition countries. This assistance supports U.S. foreign policy and national security objectives.

The 2014 Budget includes \$23.5 million to fund full-time resident technical assistance advisors, intermittent advisors, and program-related administrative costs. The appropriation will support technical assistance programs in Asia, the Middle East, Africa, Latin America, and the Caribbean. It will enable the provision of technical assistance to developing and transition countries to strengthen the capacity of finance ministries, central banks, and other government institutions to manage public finances and oversee the financial sector. Technical assistance projects support efficient revenue collection, well-planned and executed budgets, judicious debt management, sound banking systems, and strong controls to combat corruption and economic crimes, including terrorist financing. The appropriation will also support Treasury's work to strengthen the financial underpinnings for infrastructure development. OTA will continue to coordinate its activities with international financial institutions, USAID, the Department of State, and other relevant U.S. Government agencies when determining where its technical assistance program can have the greatest positive impact.

The Global Fund to Fight AIDS, Tuberculosis, and Malaria (Global Fund) account exists to obligate and disburse U.S. contributions to the Global Fund which come from funds appropriated to the Department of Health and Human Services prior to 2012. Starting 2012, all appropriations for the Global Fund have been made directly to the Department of State's Global Health Programs account.

Founded in January 2002, and operating as an independent, non-profit foundation under Swiss law, the Global Fund functions as a financing instrument—not as an implementing entity—to attract and disburse resources to prevent and treat HIV/AIDS, tuberculosis, and malaria. The U.S. Government, as a founding member of the Global Fund and its first and largest donor, continues to play a leadership role in ensuring the success of this important international effort.

The Fund reflects a unique model that relies on partnerships among governments; civil society, including community and faith-based organizations; international organizations; bilateral and multilateral donors; the private sector; and affected communities in the fight against these three diseases. This model is intended to support improved health outcomes, increased country ownership, sustainability, and accountability by financing country-driven responses, supporting programs that evolve from national plans and priorities, and disbursing funds based on performance. The U.S. Government is committed to the ongoing effort to in-

crease the efficiency, effectiveness, accountability, and transparency of the Global Fund's management of its resources.

The 2014 request includes \$1.65 billion for the Global Fund from the Global Health Programs account.

Funds for debt restructuring are periodically needed to help countries remove the burden of unsustainable debts, thereby establishing a sounder footing for economic growth. Debt relief and restructuring can be fundamental to helping countries stabilize their economies, restart economic growth, and reduce poverty and instability. Through programs such as the Heavily Indebted Poor Countries (HIPC) Initiative, the Multilateral Debt Relief Initiative (MDRI), as well as through the Paris Club, countries that have demonstrated a commitment to economic reforms and poverty reduction can benefit from debt restructurings. These programs reschedule and/or reduce the debt repayments to multilateral institutions and/or the U.S. Government, allowing beneficiary countries to increase poverty reduction expenditures in areas such as health, education, and rural development. Debt relief can also be used to promote other USG priorities. Under the Tropical Forest Conservation Act (TFCA), for example, the United States reduces some of the official debt owed to the U.S. Government by a developing country with tropical forests and "redirects" those debt payments toward tropical forest conservation in the beneficiary country. No funding is requested for the Debt Restructuring account in 2014, though the request for the Economic Support Fund includes authorization to transfer up to \$300 million to cover the cost of HIPC debt relief for Sudan, should the Secretary of State determine that Sudan has made sufficient progress along the various fronts the U.S. has identified as pre-conditions for any U.S. support, including implementing the agreement reached by the Governments of Sudan and South Sudan under the Comprehensive Peace Agreement, and other legislative requirements related to HIPC debt relief, including determinations on human rights and state sponsorship of terrorism.

**Development Assistance Programs.**—The U.S. Agency for International Development (USAID) uses Development Assistance funds to promote transformational development in developing countries working in partnership with foreign governments, local private sector and non-governmental organizations, and through public-private partnerships. These programs enable our host government partners to implement the often difficult political, economic and other systemic changes that must occur to achieve sustainable development, helping them become more self-reliant by sustaining economic and social progress.

**Promoting economic growth.**—Funding supports trade and investment programs to increase the capacity of developing countries to participate effectively in the global trading system, comply with trade agreements, improve business environments, and increase productivity. Development Assistance programs also support economic reforms, help create new job opportunities, expand access to markets, improve the knowledge and skills of entrepreneurs and workers, and support robust agricultural and natural resource management programs.

**Feed the Future and Global Climate Change.** Development Assistance provides the majority of the funding for two critical Presidential initiatives: Feed the Future (FTF) and Global Climate Change (GCC). Nearly 870 million people in developing countries suffer from chronic hunger and more than 3.5 million children die directly or indirectly from undernutrition each year. FTF aims to raise incomes of the poor, increase the availability of food, and reduce undernutrition, including by supporting the President's G8 commitment to the "New Alliance for Food Security and Nutrition", and reduce vulnerability to food insecurity, including through robust resilience efforts to enable countries in the Sahel and Horn of Africa to adapt to and help avoid recurrent food crises. The GCC initiative provides strategic investments to help vulnerable populations adapt to the impacts of climate change and reduce net greenhouse gas emissions. Global climate change threatens the livelihoods of millions in developing countries, especially the poorest.

**Governing justly and democratically.**—Funding supports evidence-based programming in countries to strengthen rule of law and respect for human rights, encourage open and competitive political processes, promote the development of a politically active civil society, and encourage more inclusive, transparent, and accountable government institutions. Funds also support a rigorous evaluation and thought leadership agenda.

**Investing in people.**—Funding helps to develop human capital through programs such as improved and expanded access to basic education, especially for girls and women, and higher education and training to expand the skilled human capital base that is needed for development.

**Peace and security.**—Funding for conflict mitigation and reconciliation activities addresses the unique needs of fragile or crisis prone countries, helps them establish a foundation for longer-term development, by promoting reconciliation, supporting peace processes, and providing support for addressing the root causes of violence through peace building programs.

**USAID Forward Initiatives.**—Funding will support initiatives on innovation, science and technology, and evaluation, changing the way USAID and other global development partners develop and bring innovations to scale, use scientific advancements, and evaluate development programs. The Development Innovation Ventures (DIV) program invests resources in testing and scaling-up innovative and high-return development projects. Science and technology funding supports partnerships with universities and scientists, and focuses on specific Grand Challenges for Development to bring the power of science to bear on major development problems. Evaluation funds support a rebuilding of USAID's capacity for performance monitoring and rigorous evaluation to help improve the effectiveness of our assistance.

**Food Aid Reform:** The FY 2014 Food Aid Reform will ensure that the U.S. Government can respond most effectively to humanitarian crises and chronic food insecurity within current budget constraints, while reaching more people in need. It includes a shift of funding previously requested in P.L. 480 Title II to three other assistance accounts: International Disaster Assistance (IDA) for emergency food response; Development Assistance (DA)

## DEVELOPMENT ASSISTANCE—Continued

for the Community Development and Resilience Fund (CDRF) to address chronic food insecurity in areas of recurrent crises; and a new Emergency Food Assistance Contingency Fund. The CDRF will be composed of \$330 million, replacing Title II non-emergency resources, including \$80 million in DA from the Bureau for Food Security resources and \$250 million in additional DA, to be implemented by partners that receive Title II funding. These jointly-funded CDRF programs will be managed by USAID's Office of Food for Peace and are a critical component of food security, strengthening the ability to address chronic poverty, build resilience, and help prevent food crises. The goal is to make food aid more timely and cost-effective and to improve program efficiencies and performance by shifting resources to programs that will allow the use of the right tool at the right time for responding to emergencies and chronic food insecurity. The range of tools and programs include interventions such as local and regional purchase, purchase of U.S. agricultural commodities and products, cash vouchers and transfers, and cash for work programs. Provided that the proposed food aid reforms are enacted and all the funding previously requested in P.L. 480 Title II is appropriated as described above, at least fifty-five percent of the requested (and appropriated) IDA funding of \$1,416 million for emergency food assistance programs administered by USAID's Office of Food for Peace will be used for the purchase and transport of agricultural commodities produced in the United States. The reform will facilitate robust emergency and development programming. (The Budget also shifts \$25 million of the efficiency savings to the Department of Transportation's Maritime Administration for additional targeted operating subsidies for militarily-useful vessels and incentives to facilitate the retention of mariners.)

Prior to 2008, funds were appropriated to the Child Survival and Health Programs account to support activities that address family planning/reproductive health; child survival and maternal health, including activities directed at vulnerable children and the primary causes of morbidity and mortality, polio, micronutrients and iodine deficiency; preventing and treating infectious diseases such as malaria and tuberculosis; and reducing HIV transmission and the impact of the HIV/AIDS pandemic in developing countries. Funding for HIV/AIDS was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. Beginning in 2008, funds were appropriated in the Global Health and Child Survival (now Global Health Programs) account, and will continue to be requested in that account.

The purpose of the Assistance for Europe, Eurasia and Central Asia (AEECA) account was to support programs to foster the democratic and economic transitions of the countries of South-eastern Europe and the independent states that emerged from the dissolution of the Soviet Union as well as related efforts to address social sector reform and combat transnational threats in these countries. In order to support the highest priorities globally in a constrained budget environment, and in recognition of the achievement of a number of assistance goals in this region over time, the Administration requested the normalization of foreign assistance resources for the countries of Europe, Eurasia, and Central Asia beginning with the 2013 Budget. Appropriations for the programs formerly funded through AEECA are now requested in the Economic Support Fund, International Narcotics Control and Law Enforcement, and Global Health Programs accounts.

The International Disaster Assistance (IDA) account provides funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. Specifically, these funds provide for the management of humanitarian assistance, rehabilitation, disaster risk reduction, and transition to development assistance programs. Humanitarian relief interventions include, but are not limited to, shelter, emergency health and nutrition, and the provision of safe drinking water.

IDA programs target the most vulnerable populations who are affected by the shock of a disaster, including those who are internally displaced.

In addition, \$1,416 million, including funding that was previously requested for PL 480 Title II, is being requested in IDA to support all emergency food assistance programs administered by USAID's Office of Food for Peace (FFP) as described below. This will provide more opportunities to use the right tool for the right need at the right time, providing more flexibility for more timely, effective, efficient, and cost-effective responses. In addition to the purchase of U.S. commodities described below, assistance options include interventions such as local and regional procurement of food, cash transfers and cash voucher programs to facilitate access to food.

**Food Aid Reform:** The FY 2014 Food Aid Reform will ensure that the U.S. Government can respond most effectively to humanitarian crises and chronic food insecurity within current budget constraints, while reaching more people in need. It includes a shift of funding previously requested in P.L. 480 Title II to three other assistance accounts: International Disaster Assistance (IDA) for emergency food response; Development Assistance (DA) for the Community Development and Resilience Fund (CDRF) to address chronic food insecurity in areas of recurrent crises; and a new Emergency Food Assistance Contingency Fund. The CDRF will be composed of \$330 million, replacing Title II non-emergency resources, including \$80 million in DA from the Bureau for Food Security resources and \$250 million in additional DA, to be implemented by partners that receive Title II funding. These jointly-funded CDRF programs will be managed by FFP and are a critical component of food security, strengthening the ability to address chronic poverty, build resilience, and help prevent food crises. The goal is to make food aid more timely and cost-effective and to improve program efficiencies and performance by shifting resources to programs that will allow the use of the right tool at the right time for responding to emergencies and chronic food insecurity. The range of tools and programs include interventions such as local and regional purchase, purchase of U.S. agricultural commodities and products, cash vouchers and transfers, and cash for work programs. Provided that the proposed

## INTERNATIONAL DISASTER ASSISTANCE—Continued

food aid reforms are enacted and all the funding previously requested in P.L. 480 Title II is appropriated as described above, at least fifty-five percent of the requested (and appropriated) IDA funding of \$1,416 million for emergency food assistance programs administered by FFP will be used for the purchase and transport of agricultural commodities produced in the United States. The reform will facilitate robust emergency and development programming. (The Budget also shifts \$25 million of the efficiency savings to the Department of Transportation's Maritime Administration for additional targeted operating subsidies for militarily-useful vessels and incentives to facilitate the retention of mariners.)

The request includes authority for FFP to cover administrative costs that were available under P.L. 480 Title II. These authorities will facilitate the purchase and delivery of U.S. commodities under IDA.

The Emergency Food Assistance Contingency Fund (EFAC) will enable the President to provide emergency food assistance for unexpected and urgent food needs worldwide.

Following a Presidential determination, funds released from EFAC will be managed by USAID's Office of Food for Peace. The account will have the same flexibility as the International Disaster Assistance account to provide timely and cost-effective food emergency responses through interventions such as local and regional procurement of food, cash transfers or vouchers to facilitate access to food, or the purchase and shipment of U.S. commodities as appropriate.

This funding is a reallocation from funding previously requested for PL 480 Title II.

The Transition Initiatives (TI) account addresses opportunities and challenges facing conflict-prone countries and those countries making the transition from the initial crisis stage of a complex emergency to sustainable development and democracy. Programs are focused on advancing peace and stability, including promoting responsiveness of central governments to local needs, civic participation programs, media programs raising awareness of national issues, addressing underlying causes of instability, and conflict resolution measures. Recent country examples where TI funds were used include Afghanistan, Pakistan, Haiti, Honduras, Kenya, Lebanon, Libya, Sri Lanka, Syria, Tunisia, Yemen, Kyrgyzstan, Burma, Mali, and Cote d'Ivoire.

TI funding provides core operational funds for the Office of Transition Initiatives within the U.S. Agency for International Development Bureau for Democracy, Conflict, and Humanitarian Assistance.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service provider missions and for technical support to missions currently providing services.

As required by the Federal Credit Reform Act of 1990, this account records, for the Development Credit Authority, the subsidy costs associated with direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program and legacy USAID credit programs. The subsidy amounts are estimated on a net present value basis; the administrative expenses are estimated on a cash basis.

In 2014, the U.S. Agency for International Development (USAID) will use the Development Credit Authority (DCA) transfer authority to support DCA projects in every region of the globe and every economic sector targeted by USAID. DCA augments grant assistance by mobilizing private capital in developing countries for sustainable development projects. Credit assistance under DCA is principally intended for use where a development activity is financially viable, where borrowers are creditworthy, and where there is true risk sharing with private lenders.

In 2014, the request for \$40 million in DCA transfer authority will continue to support the flow of credit to microfinance institutions, small and medium enterprises, and agribusinesses. In addition, USAID will develop new partnerships with diaspora groups, leasing companies, pension funds and other guarantors, both public and private. DCA loan guarantees also will be used to increase investments in climate change activities including sustainable forestry, adaptation and mitigation. The request for \$8.2 million in credit program administrative expenses will fund the total cost of development, implementation, and financial management of the DCA program, as well as the continued administration of USAID's legacy credit portfolios.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

The Inter-American Foundation's (IAF) mission is to promote and invest in grassroots development in Latin America and the Caribbean to help communities thrive. It funds self-help ideas and priorities articulated by poor communities in the region. Grantee partners invest their own resources and mobilize contributions from others. This approach is cost-efficient and results

in effective, community-led development that is consistent with U.S. foreign policy goals in the region: to expand access to economic opportunities, enhance social inclusion, build citizen engagement in democratic processes at the grassroots, and strengthen resilience to crime and violence. The IAF has specialized expertise in citizen-led development, an extensive network with Latin American civil society organizations, and a robust evaluation system that complement the assets of other U.S. government agencies. It uses these tools in collaborating and sharing lessons in development with public and private sector partners.

**Development Grants:** IAF works in 21 countries in Latin America and the Caribbean and has a portfolio of approximately 270 active projects. It funds a variety of activities, including agriculture and food production, enterprise development, education and training, corporate social investment, cultural expression, environmental stewardship, health programs and legal assistance. Advancing the inclusion of women, children and youth, indigenous peoples and African descendants in economic and civic life is of high priority to the IAF. In 2014, the IAF plans to award approximately 100 new and supplemental grants.

**Leveraging of Resources:** Grantee partners invest their own resources and mobilize contributions from others in the local public and private sector; on average over the last five years, counterpart commitments have represented \$131,000 for every \$100,000 invested by the IAF. U.S. based migrant associations are also supporting the IAF-funded grassroots development projects in their home communities. In addition, members of ReDEAmerica, an IAF-initiated business sector alliance, have committed to match IAF grant funds for self-help projects at a three-to-one ratio. The IAF also manages resources from other public or private sources to fund its development grant program.

**Evaluations and Other Activities:** The IAF tracks and independently verifies the progress of its investments at six month intervals using a distinctive evaluation system known as the Grassroots Development framework (GDF). Grants are audited annually by an independent audit firm. The IAF also convenes learning exchanges among grantee partners and conducts end-of-project assessments and a five-year ex-post assessment of a sample of projects. The IAF also supports field research on relevant development topics by Ph.D. candidates in U.S. universities. These investments contribute to the cadre of specialists in the field and add to the growing body of knowledge about grassroots development.

The African Development Foundation (ADF), is a public corporation and an independent agency of the U.S. Government established to support African-designed and African-driven initiatives to address grassroots economic and social problems and promote sustainable development. ADF provides grants of up to \$250,000 directly to community groups, agricultural cooperatives, and small enterprises that operate in under-served communities in conflict and post-conflict areas across Africa. Grant activities typically focus on food production and associated activities that improve food security and generate new economic opportunities. Each grant helps organizations create and sustain jobs, improve income levels, and address other social needs. ADF also provides grants to African NGOs to establish sustainable in-country development expertise and to provide technical assistance to project grantees.

ADF leverages additional matching program funds through strategic partnerships with several African governments and with other donor entities. In FY 2014, ADF will be expanding these outreach efforts. Leveraged funds and a lower-cost operating model help make ADF an efficient foreign assistance provider to Africa.

In FY 2014, funding for ADF programs will provide resources to establish new grants in 23 African countries and resources to monitor and maintain an active portfolio of 400 grants. ADF programs support three important strategic goals:

1) ADF programs support important security interests across Africa, such as the Sahel corridor (including Mali, Mauritania, and Niger, among others) and the Horn of Africa (including Somalia).

2) ADF programs support the Administration's development priorities that include Feed the Future and the Young African Leaders Initiative.

3) ADF programs are results and evidence based.

The United States participates in the International Monetary Fund (IMF) through a quota subscription, denominated in Special Drawing Rights (SDRs). The total U.S. quota in the IMF is presently SDR 42,122,400,000 (about \$64.7 billion as of December 28, 2012). Quotas are the main metric used by the Fund to assign voting shares and to determine countries' contributions to the IMF's general resources and access to IMF financing.

The use of the U.S. quota by the IMF under this account constitutes an exchange of monetary assets and does not result in net budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-

bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

In 2010, G-20 Leaders and the IMF membership decided on a set of quota and governance reforms designed to enhance IMF effectiveness. The United States successfully achieved its negotiating priorities during this process: (1) a U.S. quota increase with a corresponding equivalent rollback in U.S. participation in the IMF's New Arrangements to Borrow (NAB) for no change in overall U.S. financial participation in the IMF; and (2) preservation of U.S. veto power in the IMF.

To implement the terms of the 2010 agreement, the Administration is seeking to increase the U.S. quota by SDR 40,871,800,000 (approximately \$63 billion as of December 28, 2012) and simultaneously reduce U.S. participation in the NAB by an equal amount. Under the Administration proposal, which has an assumed enactment date in fiscal year 2013, the increases to the quota and NAB provided in the 2009 Supplemental Appropriations Act would be restated to reflect the pre-2009 agreement on budgetary treatment for the IMF and would be consolidated respectively into this account and the "Loans to International Monetary Fund" account. The Administration also seeks authorization for the United States to accept an amendment to the IMF Articles of Agreement that will facilitate changes in the composition of the IMF Executive Board while preserving the U.S. seat on the Board. The required authorization requests, including for mandatory funding for the quota increase and NAB rollback, will be submitted separately.

The Supplemental Appropriations Act of 2009 (Public Law 111–32), enacted June 24, 2009, provided authorization and appropriations for an increase in the U.S. quota to the IMF by the dollar equivalent of SDR 4,973,100,000 (about \$7.6 billion as of December 28, 2012). This increase in the U.S. quota entered into effect on March 25, 2011.

For quota resources authorized by the Supplemental Appropriations Act of 2009, just as with the quota resources appropriated to the IMF prior to 2009, when the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves.

While the U.S. quota in the IMF is not a credit program, the Supplemental Appropriations Act of 2009 (Public Law 111–32) directed that the 2009 appropriation to increase the U.S. quota in the IMF be scored on a credit reform basis, per the Federal Credit Reform Act of 1990, as amended (FCRA), with an additional adjustment to the discount rate for market risk. The application of FCRA by operation of law to the 2009 quota appropriation was a significant change in the budgetary treatment of the U.S. quota to the IMF and does not apply to appropriations for the U.S. quota to the IMF prior to 2009.

As directed by the Supplemental Appropriations Act of 2009, this account records the subsidy costs associated with the increase in the U.S. quota to the IMF on a FCRA basis, including an adjustment to the discount rate for market risk.

The General Arrangements to Borrow (GAB) were established in 1962 by 10 industrial countries, including the United States, as a means of supplementing the IMF's quota resources to forestall or cope with an impairment of the international monetary system. GAB participants agreed in early 1983 to increase their financial commitments to the GAB from approximately SDR 6.3 billion to SDR 17 billion (about \$17.9 billion at that time), with the U.S. share rising from SDR 1.9 billion to approximately SDR 4.25 billion (about \$6.5 billion as of December 28, 2012).

In January 1997, the Executive Board of the IMF approved the creation of the New Arrangements to Borrow (NAB), which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to the IMF to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998, and was activated for the first time in December 1998 to finance an IMF arrangement for Brazil. The IMF repaid the NAB participants in March 1999. From 1999 through March 2011 the NAB was not activated.

In 2012, forty countries and institutions participated in the NAB for a total of SDR 370 billion (about \$568 billion as of December 28, 2012), of which the U.S. share is approximately SDR 69 billion (about \$106 billion as of December 28, 2012). In 2012, the NAB was activated for two six-month periods, commencing on April 1 and October 1. As of end 2012, the IMF had accessed SDR 7.6 billion (about \$11.7 billion) of the U.S. arrangement under the NAB.

The sum of U.S. resources made available to the IMF under the NAB and GAB cannot exceed total U.S. NAB participation of SDR 69 billion.

With respect to this account, resources provided by the United States under the GAB and NAB constitute an exchange of monetary assets and do not result in any net budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the GAB and NAB are readily available to meet a U.S. balance-of-payments financing need.

In 2010, G-20 Leaders and the IMF membership decided on a set of quota and governance reforms designed to enhance IMF effectiveness. To implement the terms of the 2010 agreement, the Administration is seeking to increase the U.S. quota and reduce U.S. participation in the NAB by equal amounts, SDR 40,871,800,000 (approximately \$63 billion as of December 28,

2012). Under the Administration proposal, which has an assumed enactment date in fiscal year 2013, the increases to the NAB and quota provided in the 2009 Supplemental Appropriations Act would be restated to reflect the pre-2009 agreement on budgetary treatment for the IMF. The changes would be consolidated respectively into this account and the "United States Quota, International Monetary Fund" account. The required authorization requests, including for mandatory funding for the quota increase and NAB rollback agreed to in 2010, will be submitted separately.

For additional information about the Budget proposal, see the account entitled "United States Quota, International Monetary Fund". For additional information on the NAB, see also "Loans to the IMF Direct Loan Program".

At the G-20 Leaders' Summit in London in April 2009, the President secured agreement to expand participation and increase the size of the NAB by up to \$500 billion to restore global confidence and ensure the IMF has adequate resources to play its central role in resolving and preventing the spread of international economic and financial crises. As part of this agreement, the United States committed to increase its participation in the NAB by up to \$100 billion, which required congressional action. The Supplemental Appropriations Act of 2009 (Public Law 111–32) enacted on June 24, 2009, provided authorization and appropriations for an increase in the United States participation in the NAB by up to SDR 75 billion. This SDR amount was subject, as a practical matter, to the public commitment to an increase by up to \$100 billion. This increase in the U.S. participation in the NAB, equivalent to SDR 62.4 billion, entered into effect on March 11, 2011.

For all NAB resources, including those provided in the Supplemental Appropriations Act of 2009, when the IMF accesses NAB resources, the transaction constitutes an exchange of monetary assets resulting in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the GAB and NAB are readily available to meet a U.S. balance-of-payments financing need.

While U.S. participation in the NAB is not a credit program, the Supplemental Appropriations Act of 2009 directed that the 2009 appropriation for the increase in the U.S. participation in the NAB be scored on a credit reform basis, per the Federal Credit Reform Act of 1990, as amended (FCRA), with an adjust-

ment to the discount rate for market risk. The application of FCRA by operation of law to the 2009 NAB appropriation was a significant change in the budgetary treatment of appropriations for the NAB and does not apply to appropriations for the U.S. participation in the NAB prior to 2009.

As directed by the Supplemental Appropriations Act of 2009, this account records the subsidy costs associated with the increase in the U.S. participation in the NAB on a FCRA basis, including an adjustment to the discount rate for market risk.

For additional information about the Budget proposal and about the NAB, see the accounts entitled "United States Quota, International Monetary Fund" and "Loans to International Monetary Fund".

The Special Defense Acquisition Fund (SDAF) will help to better support coalition and other U.S. partners participating in U.S. overseas contingency and other operations and expedite the procurement of defense articles for provision to foreign nations and international organizations. Advance purchases will focus initially on high-demand warfighter support equipment that has long procurement lead times. Long procurement lead times are often the main limiting factor in our ability to provide coalition partners with critical equipment to make them operationally effective. Improving the mechanism for supporting U.S. partners is a high priority for both the Departments of State and Defense.
